UNIQUE POSTAGE STAMPS

Special techniques used on postage stamps, making them unique on a global scale

MINERALS AND FOSSILS - FLUORIT 2002

The world's first stereoscopic 3D postage stamp

SALTED POSTAGE STAMPS 2013

In collaboration with Philatelic society Piran and the Piran Aquarium, the first and only salt stamps in the world were created.

Using thermography, Piran salt with a precisely determined moisture content was applied to postage stamps featuring motifs of our sea creatures in the form of animals.

LOUIS BRAILLE 2009

Postal Stamp with embossed print denominations in Braille - colored dots

SLOVENIAN BREAKFAST 2015

Postage stamp with the scent of honey

DOLPHINS AND WHALES 2016

The stamps feature additional UV printing, where black light (365–400 nm) reveals a motif that is otherwise invisible to the naked eye.

TECHNICAL CULTURAL HERITAGE

Reconstruction of technical cultural heritage

SLOVENIAN POST AND THE SERGEJ MAŠERA MARITIME MUSEUM IN PIRAN

Slovenian ships – ships of the General Shipping Company Portorož on postage stamps

2015 - 2019

*Digital illustrations of cargo ships General Shipping Portorož
Rog, Piran, Maribor, Ljubljana, and Portorož*

*With each annual issue of the stamp, the Sergej Mašera Maritime Museum in Piran
hosted a presentation of the stamp with rich additional content
in the form of an exhibition, animations, and videos.*

Complex digital illustration: the ship Rog in the graphics program contains 1,020 layers.
